Excellence In Aviation Medicine

At Redstar Aviation, we know that caring for patients in the air is one of the most challenging sectors in medicine.

As the only provider in Türkiye having achieved accreditation in Fixed Wing Air Ambulance by the globally renowned European Aero-Medical Institute (EURAMI) e.V., Redstar Aviation voluntarily undergoes strict audits every three years, so you can be assured that you are only flying with the best.

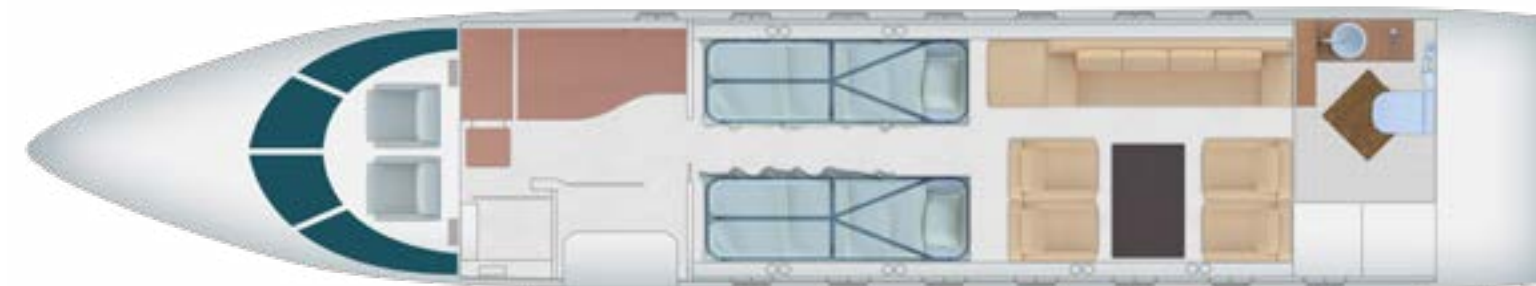

1 ICU UNITS, 8+1 SEATS*

1 ICU UNITS, 4+1 SEATS*

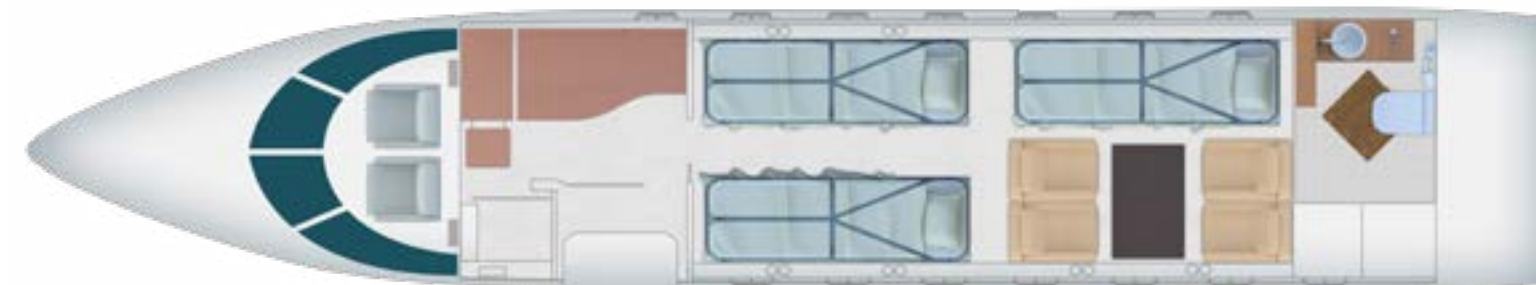

2 ICU UNITS, 6+1 SEATS*

2 ICU UNITS, 2+1 SEATS*

3 ICU UNITS, 2+1 SEATS*

* Additional seat capacity for companions

Redstar Aviation's dynamic Medical Team, consisting of specialists in different medical disciplines of Emergency Medicine, Anesthesia, Intensive Care, Orthopaedics & Traumatology, receives regular training from both internal and external sources at national and international level and is always ready to deliver expert care in every case encountered.

MEDICAL TEAM

STRATEGIC LOCATION

The geographical advantage of being based in Istanbul, enables Redstar Aviation to have an easy access to the common pick up regions in the middle of the routes connecting the continents of Asia, Africa, Europe and America, and provides proximity to conflict zones such as Afghanistan, Iraq, Libya and Yemen.

AIR AMBULANCE AIRCRAFT

With multi-patient transfer (Learjet 45 XRs configured with dual stretchers & Challenger 605 with multi configuration up to three stretchers) Redstar Aviation offers multiple solutions for medevac needs with its dedicated mid and long range air ambulance fleet.

MEDICAL EQUIPMENT

State-of-the-art medical equipment on board each aircraft enables the medical crew to perform advanced patient monitoring and provide continuous life-saving treatment throughout all of Redstar Aviation's medevac flights including HFNO, IBP, ECMO, IABP and Neonatal Incubators.
